5 Ways to get maps and geo-data

First Base Solutions creates maps from aerial imagery start to finish, including flight planning, image processing, automated and manual feature extraction, and most importantly, quality control.

Choose from these five options to easily access the high quality imagery, spatial data and comprehensive mapping services that best fit your project.

- 

MapWarehouse
POPULAR WITH ENGINEERS AND DEVELOPERS

It's an online store. Locate your area of interest on a map, then search for the data available covering that area. Add items to your cart, enter a credit card, then download the files. Save the data locally to use in your CAD or GIS based project.
- 

VuMAP
POPULAR WITH LAW CLERKS AND CONTRACTORS

It's an online mapping application. Your annual subscription allows unlimited access through a web browser to view the same data as found on MapWarehouse and more, plus easy built-in tools to research, measure, analyze, plan, and communicate spatial information.
- 

FBSWMS
POPULAR WITH INSURANCE BROKERS

It's a web mapping service. Your bandwidth based subscription serves an aerial image base layer and contour elevations directly into your WMS compliant CAD or GIS software. Layer your own data over top and compare year over year changes to land use seen in imagery.
- 

Zoom2It
POPULAR WITH REAL ESTATE AGENTS

It's a property image generator. First Base Solutions, in partnership with Teranet, brings you instant access to high resolution aerial imagery with embedded parcel boundaries. Generate three custom aerial images focused on your property, neighbourhood, and community.
- 

Custom Solutions
POPULAR WITH ENTERPRISE BUSINESSES

It's custom web mapping applications, image acquisition, custom map compilation and more. First Base Solutions can take care of complex technical issues for you with a rapid time to market, leaving you free to focus on your business, close sales, and service customers.
