MAPCAST
IMAGERY ON DEMAND

MapCast delivers mapping as a service. Stream high resolution imagery for Ontario and Alberta into your desktop mapping software on demand through an online connection to our geo-data library. Shared subscription plans scale to the size of your team, or let us design a custom solution for your enterprise or web portal.

MAPCAST BENEFITS

Easy To Use

Add data to your project and connect to MapCast instead of a file stored locally. No need to store, manage or process vast data sets.

Easy To Maintain

Monitor your team's usage in real time, assign operator and account admin roles, create custom reports, and manage your subscription online.

Works With Software You Already Use

MapCast connects to most GIS and CAD software packages using the WMS, WMTS, KML, or TMS protocol.

SUBSCRIBE

Select from aerial and satellite imagery packages plus localized vector overlays.

CONNECT

Stream data into your mapping project through the WMS, WMTS, KML, or TMS protocol.

EXPLORE

Analyze your sites with the benefit of current and archived high resolution imagery.

COLLABORATE

Everyone on your team can share access to MapCast data as little or as much as they need.

FIRST BASE SOLUTIONS
GEOSPATIAL EXPERTS

Established February 2000, First Base Solutions' (FBS) core purpose is delivering high resolution aerial imagery, geospatial data, and comprehensive mapping solutions to land information professionals. FBS caters to organizations with diverse mapping needs, technical experience, and budgets.

FBS maintains a fleet of Cessna aircraft equipped with high resolution camera systems ready to capture aerial imagery for you anywhere in North America on demand. Value added post production services include orthorectification, colour balancing, mosaicking, stereo models, and custom feature extraction.

VuMAP
WORK MADE EASY

Online Application Your annual subscription allows unlimited access through a web browser to view the same data as found on MapWarehouse and more. Built-in tools to analyze, plan, and communicate spatial information.

MAPWAREHOUSE
DELIVERING DATA THAT DELIVERS RESULTS

Online Store Locate your area of interest on a map and search for data covering that area. Add items to your cart, enter a credit card, then download the files. Save the data locally to use in your CAD or GIS based project.

MAPCAST
IMAGERY ON DEMAND

Mapping Service Subscribe to your choice of high resolution aerial imagery mosaic base layers with vector overlays served directly to your CAD or GIS workstation. Customizable plans scale to the size of your team.
